Lucknow, Uttar Pradesh, India

Summary

AI Engineer and Full-Stack Developer with internship experience building Generative AI applications, LLM API integrations, AI voice agents, VoIP/WebRTC systems, and deep learning NLP models. Skilled in Python, TensorFlow, FastAPI, Next.js, React.js, TypeScript, Node.js, REST APIs, Supabase, and PostgreSQL. Codeforces Specialist with strong Data Structures and Algorithms skills.

Education

Institute of Engineering and Technology (IET), Lucknow

Lucknow, India

B.Tech in Computer Science and Engineering (Specialization in Artificial Intelligence) | **CGPA: 8.5/10**

Nov 2023 – Jun 2027

Experience

EcoSave Home Solutions

USA (Remote)

AI Intern

Jun 2026 – Sep 2026

- **LLM Integration & Automation:** Developed LLM API integrations using **OpenRouter** and server-side workflows (webhooks, data pipelines) to automate decision-making across internal business operations.
- **Backend & API Development:** Designed multi-tier **REST APIs** and backend **microservices** connecting real-time client applications with cloud data services and AI models, and built the company's AI voice calling platform.

Projects

Unified AI Communication Platform | EcoSave Home Solutions (Internal Website)

Aug 2026

Enterprise VoIP & AI Voice Agent System | Next.js, TypeScript, Supabase, Telnyx, Vapi, WebRTC, OpenRouter

- **Telephony & Routing:** Architected a VoIP platform using **Telnyx** and **WebRTC** for employee-to-employee and customer calling, with a strict “human-first” call routing mechanism.
- **AI Voice Fallback:** Integrated **Vapi** voice agents that automatically answer inbound calls when employees are unavailable, handling conversations and capturing call recordings.
- **Post-Call LLM & SMS Workflows:** Built webhook pipelines that route Vapi transcripts through **OpenRouter** LLMs for instant call summaries and trigger **Telnyx** to send automated SMS confirmations and follow-ups.

Moodline: Emotion Detection & Sentiment Analysis | [GitHub](#) | [Live](#)

Jul 2026

Deep Learning NLP Text Classification | Python, TensorFlow, Keras, FastAPI, Scikit-learn, Pandas, Render

- **Model Development:** Built a stacked **Bidirectional GRU** classifying text into 6 emotions with **92.1%** test accuracy.
- **NLP Pipeline:** Tokenized 16K sentences; beat RNN, LSTM, and GRU baselines via class weights and early stopping.
- **Deployment:** Served via a **FastAPI** REST API with **tf.function** for **9x faster** inference; deployed on **Render**.

AlgoVerse | [GitHub](#) | [Live](#)

Dec 2024

AI-Integrated Competitive Programming Platform | MERN Stack, Redis, Gemini AI, Judge0

- **Code Execution Engine:** Built secure, sandboxed multi-language code evaluation using the **Judge0 API**.
- **AI Feedback Layer:** Integrated the **Google Gemini API** for contextual debugging tips, optimization advice, and hints.
- **Caching & Performance:** Added **Redis** caching for high-frequency database queries, cutting API latency by **30%**.

Achievements

- **Codeforces** | Max Rating: 1400 (Specialist)
 - **Global Rank 4268** in [Round 987 \(Div. 2\)](#) among 10,000+ participants.
 - **Global Rank 7183** in [Round 988 \(Div. 3\)](#) among 17,000+ participants.
- **LeetCode** | Max Rating: 1790 | **Global Rank 3279** in [Weekly Contest 424](#) among 80,000+ participants.
- **CodeChef** | 3 Stars, Max Rating: 1607 | **Global Rank 62** in [Starters 157](#) among 190,000+ participants.
- **Competitive Honors**
 - **Meta Hacker Cup 2024:** [Global Rank 5307 \(AIR 1580\)](#) among 20,000+ participants.
 - **TCS CodeVita 2024–25:** [Global Rank 4728 \(AIR 1249\)](#) among 22,000+ participants.

Technical Skills

- **Languages & Databases:** C, C++ (Advanced), Python, JavaScript, TypeScript, SQL, PostgreSQL, MongoDB, Redis
- **AI/ML:** Deep Learning, NLP, TensorFlow, Keras, RNN, LSTM, GRU, Text Classification, Scikit-learn, Pandas, NumPy
- **GenAI & Automation:** LLMs (Gemini, OpenRouter), AI Voice Agents (Vapi, ElevenLabs), Webhooks, Workflow Automation
- **Frameworks & Backend:** Next.js, React.js, Node.js, Express.js, FastAPI, Tailwind CSS, REST APIs, Microservices, WebSockets, WebRTC, Telnyx, JWT, Supabase, HTML5, CSS3
- **DevOps & Tools:** Docker, Git, GitHub, Render, Vercel, Postman, Jupyter, VS Code, Cloudinary
- **Core Competencies:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Computer Networks
