Lucknow, Uttar Pradesh, India

SUMMARY

AI Developer and Full-Stack Engineer (B.Tech CSE, AI specialization) experienced in building production LLM integrations, AI voice agents, VoIP/WebRTC systems, REST APIs, and workflow automation using Next.js, TypeScript, Node.js, Supabase, and PostgreSQL. Codeforces Specialist with strong Data Structures and Algorithms skills.

EDUCATION

Institute of Engineering and Technology (IET), Lucknow

B.Tech in Computer Science and Engineering (Specialization in Artificial Intelligence) | CGPA: 8.5/10

Lucknow, India

Nov 2023 – Jun 2027

EXPERIENCE

EcoSave Home Solutions

AI Developer Intern

USA (Remote)

Jun 2026 – Present

- LLM Integration & Automation:** Developed custom LLM API integrations using **OpenRouter** and built server-side automation workflows with webhooks and data pipelines to automate decision-making across internal business operations.
- Backend & API Development:** Designed multi-tier **REST APIs** and backend **microservices** connecting real-time client applications with cloud data services and AI models.
- AI Voice & Communication Systems:** Built an AI-powered VoIP platform with **WebRTC**, **Telnyx**, and **Vapi** voice agents for call handling, appointment scheduling, and human escalation.

PROJECTS

Unified AI Communication Platform

Aug 2026

Enterprise VoIP & AI Voice Agent System | Next.js, TypeScript, Supabase, Telnyx, Vapi, WebRTC, ElevenLabs, OpenRouter

- Telephony Architecture:** Architected an end-to-end VoIP platform supporting internal employee calling, outbound customer calls, and real-time bidirectional audio streaming using **WebRTC**, **WebSockets**, and **Telnyx**.
- AI Routing & Escalation:** Deployed AI voice agents (**Vapi**, **ElevenLabs**, **OpenRouter** LLMs) to answer inbound calls, book appointments, and escalate complex queries to human agents.
- CRM Integration & Reliability:** Integrated CRM customer records, automated SMS confirmations and follow-ups, and voicemail handling, secured with webhook validation, rate limiting, and a global kill switch.

Connectify | [GitHub](#) | [Live](#)

Jun 2025

AI-Powered Social Media Platform | MERN Stack, Gemini AI, Socket.io, JWT, Cloudinary

- Generative AI Captions:** Integrated the **Google Gemini API** to turn short user prompts into structured, engaging social media captions.
- Real-Time Messaging:** Built low-latency one-to-one chat with **Socket.io** WebSockets and **JWT** authentication.
- Storage Pipeline:** Implemented a media upload flow with no local server storage, using **Multer** (memory storage), **datauri/parser**, and **Cloudinary** for direct cloud delivery.

AlgoVerse | [GitHub](#) | [Live](#)

Dec 2024

AI-Integrated Competitive Programming Platform | MERN Stack, Redis, Gemini AI, Judge0

- Code Execution Engine:** Built secure, sandboxed multi-language code evaluation using the **Judge0 API**.
- AI Feedback Layer:** Integrated the **Google Gemini API** to give contextual debugging tips, optimization advice, and hints.
- Caching & Performance:** Implemented **Redis** caching for high-frequency queries, cutting API latency by **30%**.

ACHIEVEMENTS

- Codeforces** | Max Rating: 1400 (Specialist)
 - Global Rank 4268 in Round 987 (Div. 2) among 10,000+ participants.
 - Global Rank 7183 in Round 988 (Div. 3) among 17,000+ participants.
- LeetCode** | Max Rating: 1790 | Global Rank 3279 in Weekly Contest 424 among 80,000+ participants.
- CodeChef** | 3 Stars, Max Rating: 1607 | Global Rank 62 in Starters 157 among 190,000+ participants.
- Competitive Honors**
 - Meta Hacker Cup 2024: Global Rank 5307 (AIR 1580) among 20,000+ participants.
 - TCS CodeVita 2024–25: Global Rank 4728 (AIR 1249) among 22,000+ participants.
 - AtCoder: Global Rank 2390 in ABC 386; Rating 416 (8 Kyu).

TECHNICAL SKILLS

- AI & Automation:** Generative AI, LLM API Integration (Gemini, OpenRouter), AI Voice Agents (Vapi, ElevenLabs), Telnyx, WebRTC, Workflow Automation
- Frameworks & Backend:** Next.js, React.js, Node.js, Express.js, REST APIs, Microservices, WebSockets, Webhooks, Socket.io, JWT, Supabase
- Languages:** C, C++ (Advanced), JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
- Databases:** PostgreSQL, MongoDB, Redis
- Developer Tools:** Git, GitHub, Postman, VS Code, ClickUp, Cloudinary, Judge0
- Core Competencies:** Data Structures & Algorithms (DSA), OOP, DBMS, Computer Networks
